It gives me immense pleasure to know that Khalsa College of Education, G.T. Road, Amritsar is launching its “Newsletter”.

Students and faculty are integral part of a college's overall network, but there are many other stakeholders who are interested in what's happening at the college. Khalsa College of Education, Amritsar is striving hard to set new benchmarks in the field of teacher education and translating its vision of producing thoroughly professional and humane teachers into reality. I hope by offering the Newsletter the college will be able to share its growth roadmap with an extended audience and thus will expand its overall branding to various subsets of the external community, including potential employers from the education industry and prospective students.

I wish good luck to the Principal and teachers for the success of this new venture.

S. Satyajit Singh Majithia
President
Khalsa College Charitable Society, Amritsar

It gives me immense pleasure to pen a few words as a prologue for the maiden issue of the 'Newsletter' of the college. Khalsa College of Education with its 69 years long history has been one of the premier higher education institutions of Northern India. With a glorious track record in the field of teacher education and the blessings of the great luminaries and legendary alumni, the college is committed to provide quality education compatible with the global standards.

The publication of the Newsletter is another endeavour by the college that would provide a plethora of opportunities to the students to share and exchange their creative ideas. It will bring with itself a constellation of talents of miraculous minds that would sidetrack not only the monotonous routines but would also tickle fantasies and energise the souls.

I congratulate and appreciate all the students and the Editorial Board for bringing out such a beautiful publication with their concerted efforts.

S. Rajinder Mohan Singh Chhina
Honorary Secretary
Khalsa College Charitable Society, Amritsar

The trailblazing National Education Policy (NEP) was released in 2020. The core principles of Education were iterated in the policy viz: recognising, identifying and fostering the unique capabilities of each learner with no hard distinctions between humanities, sciences, vocational learning, sports and arts to remove dissociation among different areas of learning.

The policy made it clear that the most essential skills for the future are critical thinking, creativity, communication and collaboration. The princely status given to text books as fountainhead of all information has been taken away. Now the content is to be presented in different ways through different modes and means and Creativity is the king of the content. Since the curriculum content has been reduced in every subject to its core essentials, the child has ample space and time for observation, reflections and critical thinking ammunition (capacity building exercises). Quality learning entails well motivated and quality teachers and the Pedagogies that must be both innovative and joyful.

Khalsa College of Education G. T. Road, Amritsar is a front runner teacher education institution where would be teachers are equipped with requisite academic prowess and skills-Creative, Cognitive, Technological and Higher Order Thinking skills. Every effort is made to help student teachers to evolve, be good human beings, cultured citizens and sound professionals. We educate nation builders who have a different kind of knowing energies, are capable of handling themselves and others in the face of daunting challenges, reinventing a ‘wholeness’ present in themselves and their students so that they are able to give their best version when they actually go to schools. With the launch of the Newsletter, an attempt has been made to give a platform to the students to showcase their creativity and also to acquaint the stakeholders and the well-wishers with the regular activities being undertaken in the campus to create a culture of lifelong learning and help the student teachers to unlock their potentials so that they are able to practise what they learnt here when they actually propel themselves into future.

Dr. Harpreet Kaur
Principal
Khalsa College of Education, Amritsar
Khalsa College of Education, Amritsar, a legendary epitome of learning has been one of the premier teacher education institutions of Northern India. The mission and the objective of the college has always been to inculcate lofty moral values along with professional and academic excellence. In pursuance to the commitment for quality, the college organises an array of activities for the academic and professional growth of the students as well as teachers in order to take the college at the highest pedestal.
Hello readers! This is an autobiographical account of my experience during the B.Ed- M.Ed course journey in Khalsa College of Education, Amritsar.

Without giving any thought I can say that it was a journey with varied experiences following numerous emotions. First and foremost, I simply loved being a college student once again after a gap of almost 10 years. Which is why I left no opportunity to enjoy it to the fullest, whether it was about having fun inside the classroom, in the library, during special occasions or in the canteen with friends.

The College embraced me to an extent that I never felt like an outsider though my classmates did have tough time-speaking in Hindi with me. I adore this institution for adding few more life time friends to my buddy basket. Darpan, the all-time support system with an amazing time management skill, Sundas, a complete package of positivity, Sheetal, my personal favorite poet cum philosopher, Sherry, a person sweeter than her cakes, Mehak and Heman, two amazing talkative juniors who are talented yet grounded.

While talking about my days in Khalsa college the faculty members can't be missed upon. I have been lucky enough to get all support and love from Dr. Harpreet Kaur (Principal), Dr. Nirmaljit Kaur, Dr. Gurjit Kaur, Dr. Avneet Kaur, and rest all the teachers-at all times. They had been there at all odd times to provide support and strength.

These three years in the college were a mixture of happy and sad moments including anxious hours before exam, preparation for youth fests, personal turmoils, emotional outbursts of friends, the funniest teaching practice ever, and many more. It was overall some of my most memorable days in Amritsar, rather I would say it was that stimuli which kept me comfortably going in Amritsar after leaving my job in Delhi.

Thanks to Khalsa College of Education for being a chapter in my life's book.
My Dazzling Journey

Hemandeep Kaur
B.Ed. (Session 2020-22)

I'm a 23-year-old student who has recently completed her Bachelor's of Education from Khalsa College of Education, G.T. Road, Amritsar. I vividly remember the very first day when I came to the college with a very heavy heart, as if I was about to make a regretful decision of my life. Despite my hesitations, I decided to enroll myself and begin this new innings of my life with full commitment.

Now the journey begins

In the first semester, I was practically unknown. But my "Reading and Reflecting on the text" assignment unexpectedly pushed me into the spotlight, leaving a remarkable impact on my classmates and the staff members. I met my school music instructor Mr. Shael in the campus after 5 years and he introduced me with my college music professor Dr. Arwinder Kaur and here my journey as a participant of co-curricular activities began. During my Youth Festival practice sessions, my class professor Dr. Avneet Kaur acquainted me with Vice Principal Dr. Nirmaljit Kaur, who after listening to my debatic skills, instantly made me a member of Literary Team of the college. I made some wonderful friends during the practice sessions of music and literary items. (My team mates= Raman: one who is always supporting, Brij: the diligent one, Gurpreet: the tabla star, Hardeep: most hilarious one, Raman: my sweetest senior, Akash: benevolent one, Komal: the quick-witted one, Mehak: who always creates an exquisite aura, Lovepreet: the one who can actually provide peace through his inspiring writing skills). Apart from the co-curricular activities, I learnt a plethora of new things in my classrooms starting from acquisition of the skills necessary to be mastered in the teaching profession to fulfilling the responsibilities assigned to me by the concerned teacher incharges from time to time.

Naginderpal Singh
3 Year Integrated B.Ed.-M.Ed. (Session 2020-23)

I'll always cherish the memories that I made in these three years. The teachers are very helpful and it is because of their help and never ending support that this strenuous course seemed like a piece of cake. Nevertheless, I got opportunities to grow to the fullest of my potential. From participating in a National Camp as well as in 10th Amritsar International Youth festival, participating in various events to getting the opportunity and serving as a Campus Ambassador of the college, I have come a long way. I sometimes look back and marvel how fast time has flown away. The college years are genuinely surprising and wonderful point in life where we take mature steps towards our future, meeting many friends, making friends like family, choosing our majors, finalising our careers and preparing for the challenges of the real world. The moments might have ended but the memories will remain intact forever.

Pallavi Thapar
B.Ed. (Session 2020-22)

I had an amazing journey throughout the course. I used to participate in every single function and I was the CR of my Class. Every teacher was happy with me and personally, Mrs. Rajwinder Kaur Sekhon guided me for the same. I have a great bond with mam and it will go a long way. I learnt so many skills of teaching here that I am using in my profession. I am a government School teacher now.
KCE: A CREATIVE CAMPUS

KCE is a cosmopolitan community abuzz with creative, innovative and vibrant cultural and academic life. A wide spectrum of programmes paired with flexibility, experiential learning and inter-disciplinary orientation emancipate our students to explore their potentialities and hone their skills for fulfilling careers.
